

AGENDA

Children's Behavioral Health Plan Implementation Advisory Board

December 7, 2015

1:00-3:00

- | | | |
|------|---------------------------------|------------|
| I. | Welcome and Introductions | Tri-Chairs |
| II. | Progress Report Update | DCF |
| III. | Working Group Breakout Sessions | |

Each group will begin cross walking the recommendations from the Plan with key tasks/activities to be accomplished that will advance the deliverables in the plan. As an overall, per Public Act 15-27, catalogue mental, emotional and behavioral health services offered for families with children in the state by agency, service type and funding.

- a. Fiscal Analysis/Mapping – review potential data elements to help identify the amount of money in the children's behavioral health system across state agencies and other payers and where and how they are spent.
- b. Network Analysis – better understand the significant ways in which the major partners in the behavioral health system can be fully coordinated and integrated (including: state departments, community-based providers, hospitals, primary care, schools). Subcommittee to establish framework for interconnection of different levels of care and supports within the CT Behavioral Health System of Care.
- c. Data Integration – develop an integrated data agenda to reduce fragmentation and to be sure that the current quality data is shared across the behavioral health system.
